

THREE DAYS ONLINE COURSE ON
“An Approach for Proper Utilization of Barren Land of Uttarakhand Villages for Organic Farming, Growing Plants of Medicinal Values and Their Formulation Aspects”

OBJETIVES

- ✓ Concept of organic and medicinal plants farming can give effective solution for old age and continuous problem of migration of poor unemployed persons of hilly region towards developed cities.
- ✓ Course can be a stepping stone towards the journey of establishment of such farms in our state which is full of opportunities.
- ✓ This approach can help our state in opening doors to new ventures and to get a recognizable place in health sectors globally.
- ✓ This course can be a new “hope on the horizon” for the utilization of land to setup cottage industries to generate completely new source of income.
- ✓ Establishment of these unique kinds of organic and medicinal plant farms in our state can target a dual policy of upliftment of tourism industry and health benefits at a time.

LEARNING OUTCOME

After successful completion of this course students would be having a clear idea of how without leaving their motherland they can utilize this to earn their living and create new opportunities for unemployed workers to become key role players in uplifting the economy of our state and country.

MAIN HIGHLIGHT OF THE COURSE

- ✓ This course will be free of cost
- ✓ For successful completion of this online course each registered students will be given E-Certificate by the Kumaun University.
